Feeding Directions

Body weight range	Tablets, per day	Examples of animal gender and species in specific weight ranges*
0-150 kg	1	Juvenile seals and sea lions Adult female fur seal and California sea lion, harbor seal
150-300 kg	2	Adult bottle nosed dolphin, grey seal, male fur seal, Male California sea lion, female Steller sea lion
300-500 kg	3	Juvenile walrus, Adult male Steller sea lion
500-1,000 kg	4	Adult beluga whale, male Steller sea lion, female walrus
1,000-1,500 kg	5	Adult male walrus
1,500-2,200 kg	6	Adult orca

* Note: Juveniles will change in weight over time, and adult weight may vary with environment, life stage and management. Tablet dosing must be adjusted accordingly. Feed out within 12 hours of pilling fish/shellfish.

Storage Conditions

For best results, tightly affix lid on container after removal of required dosage. Store in original container in a cool (75°F or colder), dry (approximately 50% RH) location. Use within 1 year of manufacturing date. Note: tablet coating may become speckled with exposure to air – this is not indicative of any vitamin degradation.
