

Vita-Zu® Sea Turtle Vitamin for Fish-based diets

(Available at www.mazuri.com or through a Mazuri® retailer)

Formula Code – 5B48

Description

Mazuri® Vita-Zu® Sea Turtle Vitamin for Fish-based diets is designed to complement prey items normally fed to captive fish-eating sea turtles.

Features and Benefits

- Formulation based on wild diet composition.
- Created in collaboration with Dr. Terry M. Norton and the Georgia Sea Turtle Center.
- Added stable form of vitamin C.
- Dosing recommendation reduces variability in supplementation.
- Outer coating decreases instance of oxidative vitamin losses.
- No artificial flavors or colors.

Product Form

Round tablet weighing 0.5 g or 1.5 g.

- 0.5 g; 1.5 kg per canister (~3,000 tablets)
- 1.5 g; 1.5 kg per canister (~ 1,000 tablets)

Ingredients

Maltodextrin, manganese methionine hydroxy analogue chelate, ascorbic acid (stabilized vitamin C), ferric citrate, thiamin mononitrate, zinc methionine hydroxy analogue chelate, dl-alpha tocopheryl acetate (form of vitamin E), shellac and diacetylated monoglyceride (outer coating), choline bitartrate, silicone dioxide (tableting agent), manganese stearate, calcium pantothenate, riboflavin supplement, pyridoxine hydrochloride, niacin, menadione sodium bisulfite complex (source of vitamin K), tribasic copper chloride, vitamin A acetate, beta-carotene, folic acid, calcium iodate, biotin, cholecalciferol (form of vitamin D₃), vitamin B₁₂ supplement.

Feeding Directions

- Feed to sea turtles by placing tablet into the food (shellfish or fish).
- Feed tablets based on food weight.
 - 0.5g - 1 tablet per 0.17 kg of food (~0.37 lb).
 - 1.5g - 1 tablet per 0.50 kg of food (1.1 lb).
- Recommendation: feed out within 12 hours of pilling food.

Storage Conditions

For best results, tightly affix lid on container after removal of required dosage. Store in original container in a cool (75°F or colder), dry (approximately 50% RH) location.

Note: tablet coating may become speckled with exposure to air – this is not indicative of any vitamin degradation.
